

DATASHEET

Yealink W80B

Multi-cell DECT base station for extended wireless coverage

The W80B is the base station of the W80 DECT IP multi-cell system, built to extend wireless coverage across the enterprise. Paired with the W80DM manager, it delivers seamless roaming and call handover.

Key features

- Up to 30 W80B base stations per W80 system
- System supports up to 100 handsets and 100 simultaneous calls
- Up to 8 wideband calls (4 active handsets) or 8 narrowband calls per base
- DECT range up to 50 m indoors and 300 m outdoors
- Seamless roaming and call handover between cells
- Power over Ethernet (IEEE 802.3af, Class 1), wall mountable
- DECT, TLS and SRTP encryption with Level 1 backup base sync

\$558.60 — one-time fee, RNT preparation included

Manufacturer suggested and mandated price (MSRP/MAP). Brand-new device, Canadian manufacturer warranty, configured and tested in our lab — plug it in and everything works.
